

Red Roo HLS Log Splitter

Lift and split with ease

The Red Roo HLS makes light work of some of the toughest Australian hardwoods. It has a 13hp OHV engine and a 250kg lifting tray to make log splitting easy. The HLS comes complete and ready to tow with spare wheel, mudguards and quick release coupling, making it ideal for the person with acreage, arborists, gardeners, wood yards and the rental industry.

Features

- 26 tonne main cylinder
- 250kg hydraulic lifting table
- Log cradle
- Solid steel construction utilizing laser cutting & CNC equipment
- Sandblasted & powdercoated finish
- 50mm quick release trailer coupling
- Heavy duty, spring loaded jockey wheel
- ADR compliant Hella® lighting
- Red Roo Flexride™ suspension
