

Red Roo DHS Post Hole Digger

Simple, Safe, Single Person Operation

The Red Roo DHS is designed to provide safe, simple one person operation. The DHS is all hydraulic for greater reliability and low maintenance. It disassembles easily for transport. Ideal for fencing contractors and the rental industry, the DHS is available with a range of augers to dig from 100mm (4") to 350mm (14") in diameter and 900mm (35") deep. Depth may be increased with the use of one or more 500mm (20") extensions.

Features

- *Hydraulic power / no belts / gears or shear pins*
- *Dual rotation of auger*
- *Control handle - automatic neutral return*
- *Hydraulic fluid level sight glass*
- *Spring loaded height adjustment (allows operator to clear auger & extension from hole)*
- *Disassembles for easy transport*
- *Sandblasted & powder coated finish*
- *Flat face hydraulic connectors*

Red Roo DHS Post Hole Digger

Rotor moulded hydraulic tank with in line filter

Handle pivots for uneven ground

Quick connect, no drip flat face couplings

Simple one person operation

Operator handle height adjustor

Breaks down for easy transportation

Specifications

Engine	9hp (6.7kW) OHV GX270 Honda or 9hp (6.7kW) OHV EX27 Robin Subaru
Operating pressure	2200psi
Assembled length	2500mm (98")
Assembled width	810mm (32")
Assembled height	1550mm (61")
Weight	80 kg (176lbs)
Wheels	4.80 x 4.00 x 8
Auger range	100mm (4") - 350mm (14")
Auger length	900mm (35")
Extension allows for another	500mm (20")
